WHITEHEAD WINS

BY A SAFE HIT IN THE NINTH INNING.

A Close and Exciting Game, Full of Brilliant Plays - Charleston's Great Pitcher, Weyhing.

There was a dazad look on the faces of the 1000 or more people who witnessed yesterday's game between Memphis and Charleston that must have been intense'y comical to those who hadn't staked anything on the game. And it must be confessed that the humor of the situation is more thoroughly enjoyable from a retrospective point of view than it was from the grand stand during the progress of the game. It wasn't hill as funny at the time as it looks now.

Those Charleston boys actually had the assurance to make two rans against Memphis in the first inning. and present her with three nice litt e goos-eggs all in a row, and after they were tied in the fourth inning by the locals recring 2 uns, they rubbed the medicins in by presenting the home nine with four more ergs of the same variate, and it was only by lucky hits of Whitehead and O Leary that the home nine just did pull through in the last inning. It was a game to be remembered. More brilliant individual playing has never been witnessed on the local grounds, and as an exhibition of good hall playing contact. exhibition of good ball playing the game yesterday will rank with any played here with visiting clubs. Charleston, it is true, made four errors, but they were more than a oned for by the exceptionally fine with of Gardner, Gilman, Crowley, Powe'l and McVey The latter is charged with two errors, but with all that, when it is remembered that he was fixing a new pitcher, to whose delivery he was unaccust med, his work was of the highest order of excel-lence. Some of his stops were extraordinary, and time and again brought down the grand stand with applause. Charlestons are to be congratula ed on haviog secured so valuable a man, transfers playing at short was simply great. He covers about three acres of ground and scoops in everything that comes within that distance of him. It is worth double the price of admission to see him play. One of his sion to see him play. One of his carches yes erday of a line fly that looked like a sure hit was particululy noteworthy as an exhibition of skill and aleitnes. Gardner is also a good base runner and a heavy hitter. He

He put out four men, all on difficult flies, and two of the four catches made were lit le short of marvelous, and better sull, they were made at a time when a muff would have been fatal. In the fifth inning, with but one man on', Gardner got to first on Manrell's muff of a fly to center fie d. Gardner then, with the meanness characteristic of him, stole second. Then Hines stepped up to the plate and knocked a long fly to the right field fence and Saced, who was close up to first, had to ran like a day to get made, it, but he a combiderr to get under it, but by a combination of speed, good juogment and great skill, ne gobbled that hall just where it came down about six incres its'de of the fence. I have heard a great many expressions of opinion about the matter, and, sifting all the reasons giv nil have come to the conclusion that it would be a good thing to make a contract with the old company for a limited period. This thing of binding a city for sixty years don't strike me very favorably. It is two generations. There is no telling what accence will give us in the way of lighting in the n x few years, and if one or two more new companies were allowed to come in, the benefit, admitting that compention in gas was genuine, might not amount to anything. Besidee, I do not see the necessity for crushing out a million of capital. While I do not believe in monopoly as a rule, or in oppressive to coopely at any time, I tuink we had better go slow about tearing up the stree's.
